#### Customer Problem Statement Template:

A well-articulated customer problem statement allows team to find the ideal solution for the challenges customers face. Throughout the process, i am also be able to empathize with customers, which helped me better understand how they perceive our product or service.

#### Example:

| Problem Statement (PS) | I am (Customer)                 | I'm trying to                                                    | But                                                                     | Because                                                                            | Which makes me feel                  |
|------------------------|---------------------------------|------------------------------------------------------------------|-------------------------------------------------------------------------|------------------------------------------------------------------------------------|--------------------------------------|
| PS-1                   | An End-Customer seeking support | Get a fast, clear status update on my damaged merchandise order  | It takes a long time to get a response regarding my case classification | The support team is bogged down by manual triage and lacks instant case summaries. | Frustrated and Ignored               |
| PS-2                   | A Support Executive             | Efficiently analyze and summarize complex customer service cases | Repetitive manual documentation of diverse issues takes too much        | There is no integrated AI summarization tool to automatically process and          | Frustrated , Pressured, and Stressed |

|  |  |  |                               |                           |  |
